

### **WHO WE ARE**

Santa Maria Community Television is a public access television studio, has a staff of two, and uses channels provided by Comcast that reach the cable company's subscribers in the Santa Maria Valley.

The entire operation is 100 percent funded through an annual grant paid by the local cable operator, Comcast Cablevision. That grant is a condition of the Franchise Agreement signed by Comcast and the City.

SMCTV's employees report to the City Manager's Office.
